WHITEPAPER

Hunt Bot Ai

AUTOMATE, OPTIMIZE, AND DOMINATE THE CRYPTO MARKET.

Vision & Mission

Hunt AI is a trading automation platform that leverages influencer insights and technical analysis for optimized strategies. It enables instant, automated trades based on real-time influencer calls and market indicators.

With multi-chain integration, real-time tracking, and customizable strategies, it suits both novice and experienced traders. By connecting with Twitter and Telegram, Hunt AI ensures users stay ahead of market shifts, maximizing profit potential.

Vision: Revolutionize trading through automation, ensuring users capitalize on opportunities instantly.

Mission: Provide an intelligent, AI-powered trading ecosystem that is fast, efficient, and accessible to all traders.

Market Opportunity

The Need for Automation in Crypto Trading:

- Volatility & Speed: The crypto market moves fast—manual trading is inefficient.
- Influencer Impact: Over 50% of traders rely on social media for insights.
- Data-Driven Trading: AI & automation enhance accuracy and profitability.

Market Potential:

- The global crypto trading market is expected to surpass $4.94 trillion by 2030
- Over 100M+ traders actively participate in the crypto economy
- Automated trading platforms are seeing 300%+ growth in adoption

Key Advantages:

- Real-time influencer-driven trading execution
- AI-powered strategies and automation
- Multi-exchange and multi-chain compatibility
- User-friendly web, mobile, and Telegram integration

Core Features

Auto Sniping:

Hunt AI uses cutting-edge tech to auto "snipe" influencer calls in milliseconds ⏱️. As soon as an influencer posts a trade, it executes the trade before the market reacts
This ensures early entries for max profit potential, freeing you from constant monitoring while staying ahead of the competition.

Auto Buy & Sell

Hunt AI automates buy and sell orders based on your pre-set strategies. Once you've set your parameters, it handles the trades—monitoring market conditions and executing actions in real-time 🔄.
This removes manual intervention, letting you trade efficiently and profitably without being glued to your screen

Multi-Chain Support

Hunt AI supports multi-chain trading across popular blockchains like Solana, Ethereum, and more. Trade ERC-20 tokens on Ethereum or SPL tokens on Solana seamlessly, without complex tools 🔗.
It offers greater flexibility for high-speed, cross-chain trading, all within a simple, user-friendly interface

Tracking & Analytics

Hunt AI's powerful dashboard tracks your portfolio in real-time, giving you a clear view of your investments

Key features:
- Real-Time Tracking: Stay updated on trades and asset performance
- Profits & Losses Breakdown: View detailed trade gains and losses
- Overall Health: See total value, gains/losses, and asset distribution
- Performance Analytics: Evaluate success rate, trade frequency, and risk

Influencer Integration

Hunt AI's dashboard tracks your portfolio in real-time for a clear investment overview

Key features:
- Real-Time Tracking: Track trades and asset performance
- Profits & Losses: See gains and losses
- Overall Health: View total value, gains/losses, and distribution
- Performance Analytics: Assess success, trade frequency, and risk

Make smarter, data-driven decisions with real-time insights

Private Group Auto Buys

Hunt AI elevates community trading with Private Group Auto Buys, executing trades based on private group recommendations
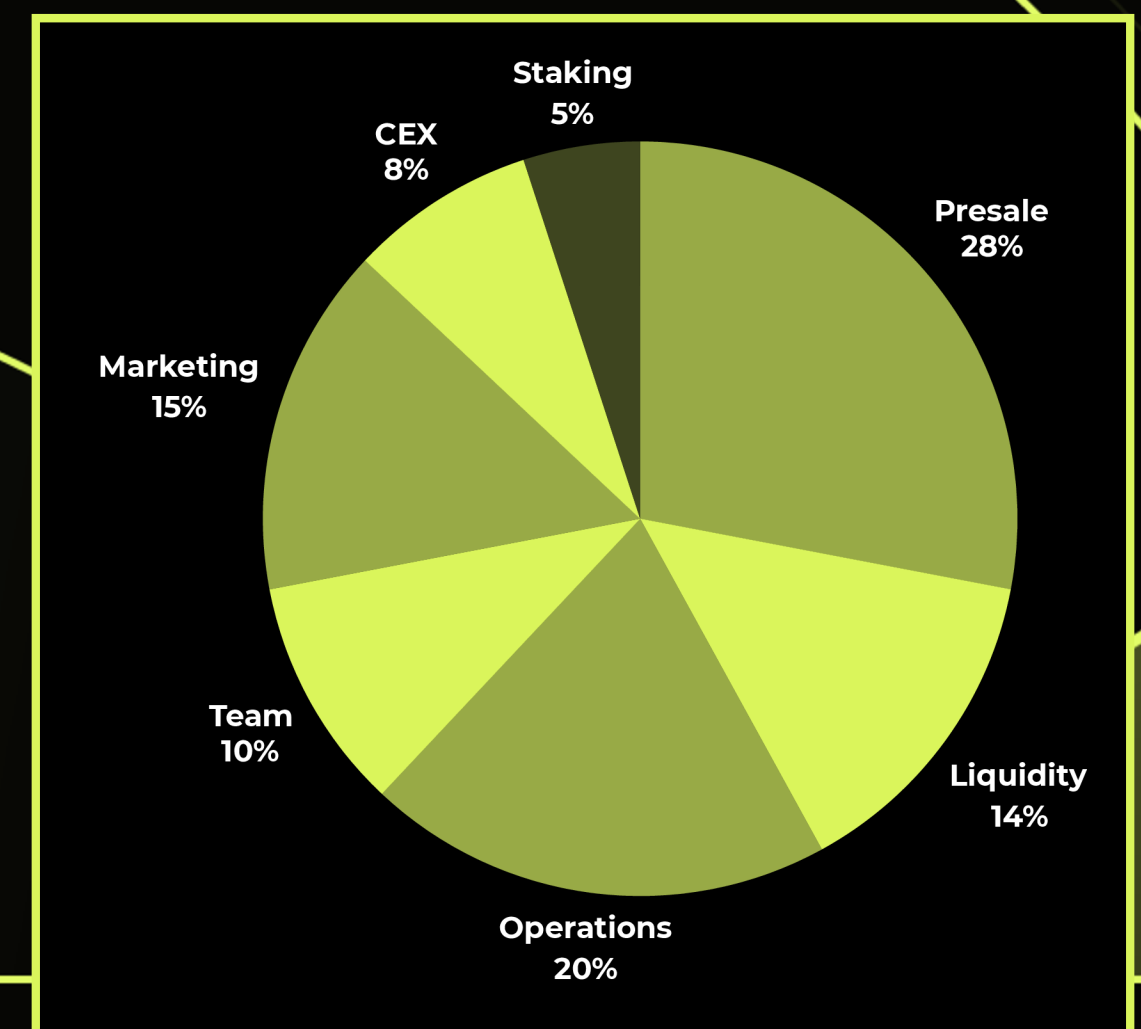

Key features:
- Sync with Private Groups: Integrate with Telegram groups for exclusive trade signals
- Auto Execution: Instantly act on recommendations without manual monitoring
- Customizable Parameters: Set criteria for trades to match your strategy
- Exclusive Access: Benefit from insider recommendations and high-impact trades

Tokenomics

We've strategically designed the tokenomics of Hunt Bot Ai to support long-term growth while minimizing risks for our investors. By locking away tokens that are not immediately needed, we ensure the value of the token remains strong, with a focus on sustainable development.

TAG	NO OF TOKENS	% OF TOTAL SUPPLY
PRESALE	28,000,000	28.00 %
LIQUIDITY	14,000,000	14.00 %
OPERATIONS	20,000,000	20.00 %
MARKETING	15,000,000	15.00 %
TEAM	10,000,000	10.00 %
CEX	8,000,000	8.00 %
STAKING	5,000,000	5.00 %
OVERALL	100,000,000	100.00%

Token Holder Benefits

Earn Rewards by Holding Hunt AI Tokens
Hunt AI incentivizes token holders with exclusive benefits and passive income opportunities.

- **Premium Features:** Unlock advanced strategies, influencer signals, and detailed analytics

- **Staking for Rewards:** Earn passive income by staking Hunt AI tokens

- **Governance & Voting Rights:** Influence platform decisions and future updates

Revenue Share

Hunt AI shares transaction fees and premium subscriptions with token holders

- **Trading Fees:** A portion of transaction fees is distributed among token holders

- **Influencer Call Profits:** Earnings from influencer-driven trades are shared

- **Premium Subscription Revenue:** Subscription fees from advanced features and private groups benefit token holders

Thank You

for joining us on this exciting journey with Hunt Bot Ai. Together, we are redefining how AI can hunt, learn, and adapt, pushing the boundaries of innovation.
